PROFILE

Computer System Security student at UniKL MIIT seeking a Blue Team or SOC internship. Academic work in cloud security and incident response, with an interest in security logs, alert investigation and evidence-based reporting.

PROJECTS AND PROFESSIONAL DEVELOPMENT

Cloud security labs: Configured a kind cluster with a five-pod quota and verified rejection of an extra pod. Tested LocalStack KMS tenant isolation, key-state restrictions, SHA-256 hashes and digital signatures.

Healthcare incident response playbook: Contributed the communication plan and lessons learned for a team playbook on a simulated hospital EMR data breach.

AgentSOC FYP proposal: Co-scoped a two-person, read-only Wazuh agent for Windows authentication alerts. Planned evidence-linked reports and evaluation of investigation time, accuracy and evidence reliability using Python, FastAPI, Wazuh, Sysmon and an LLM.

EXPERIENCE AND ACTIVITIES

Logistics and Quality Assurance Member - National Flag Pin Distribution
March - May 2025 | Checked product quality and supported packaging, inventory tracking and distribution logistics.

Event Crew - MITEC
March - July 2023 | Supported event setup and sound systems, coordinating backstage with technical and logistics teams.

Activities Committee - Rumah Titian Kaseh
May 2025 | Helped organise a children's treasure hunt.

SKILLS AND TOOLS

Incident response, network security, access control and evidence reporting fundamentals. Docker, Kubernetes (kind), LocalStack, AWS CLI, Wireshark and VirtualBox. Python and SQL basics, Git, Linux (Ubuntu and Kali), Windows. Bahasa Malaysia (fluent) and English (intermediate).

CERTIFICATES AND TRAINING

TryHackMe Pre Security - Completed learning path, 1 July 2026.
AI Career Readiness Training, ASEAN Foundation - Completed, 15 September 2026.
Kracked Labs Builders Sandbox #1, The AI Builder School - Participation, 28 September 2026.
TryHackMe Blue Team learning path - Practical training.
Blue Team Fundamentals (BTF), CyberWarFare Labs - In progress.
CompTIA Security+ (SY0-701) - Study and exam preparation.

EDUCATION

Bachelor of Information Technology (Hons) in Computer System Security
Universiti Kuala Lumpur MIIT | Expected graduation 2027

Foundation in Computer Technology
Completed August 2024 | GPA 3.70/4.00
Relevant coursework: Network security, cloud security and incident response.
